Montevideo, June 25

The Freemasons' banquet last night at Hotel Continental on occasion of election and installation of new Master for 1890-91 was numerously attended. After an excellent dinner the usual toasts, Masonic and profane, were gone through, evoking in several instances brilliant speeches from proposers and responders. Then followed vocal and instrumental music in which several well-known amateurs took part with customary success. The meeting terminated with God save the Queen, preceeded by Auld Lang Syne. Mr. Greenwood, the newly elected Master has been much complimented for his excellent arrangements and he inaugurates his term of office under most favourable auspices.

THE BOLIVIAN REVOLUTION.

We received yesterday by post an exchange from Bolivia. The date on its front page was old and the sheet so torn and so blurred that it looked something between a flag of truce and an opposition paper. The remnants of its narrow columns breathed sufficient revolutionary spirit not only to overthrow the Bolivian authorities but even to change the order of things in South America. It is not our intention to usurp the philosophic function of the historian, study the fitful changes of political passions, and mark and predict under what particular circumstances those passions will combine, culminate and produce a social revolution. We will not even yield to the temptation of pointing to the immutable stamp of social law in the unexpected events now developing in the realms of our diminutive neighbor. The fact is, according to the telegrams we have published within the last fortnight, the popular cause has been nearly quashed. Camacho, the leader of the revolution, is a fugitive and his following has been scattered by the frowns of ill-fortune. Whether the remnants of his forces will rally in the mountains and make one determined effort to overthrow President Arce it is difficult to say. Without being revolutionary, we sympathise with the Bolivians. The movement, so far as we can gather from the scant details to hand, is the upheaval of an oppressed people against the tyranny of successful personal ambition, a struggle of popular leaders against the decaying influence of an oligarchy, headed by no less a personage than the President of the Republic, and momentarily defended by the bullets and bayonets of the soldiery. It is a considerable advantage, no doubt, for the authorities to be supported by the troops, but the people, with their woes and their misery for sole weapons, are thrice armed, and their cause in the end must triumph.

So few and so limited are our relations with Bolivia that we are constrained to say, although it almost costs us a blush, that we know not, how that state stands —whether through the profligacy of the reigning oligarchy the financial strength of the Republic has been weakened, or that the people, after the usual lapse of extravagance, have been driven by misery and poverty to rebel against a party they tolerated in prosperity and now wish to overthrow in adversity. It is impossible to say. Our ignorance on the subject is indirectly due to the want of railway enterprise, a want which deprives Argentina of a deal of trade and useful knowledge. There have, we know, been several projects for railroad communication with Bolivia, but a railway project, like a good intention, is worthless, if not carried out. For all we know, the President of Bolivia may have endeavored to calm the ruffled feelings of the people by endeavoring to rebuild the financial strength of the state and restore that confidence without which no Government, however strong at first, can long hold out. The few details which come to us from Bolivia on the back of a mule cannot throw much light on the political situation of the country, and all we can say for certain is that President Arce is a very wealthy man. As to his character, we are completely in the dark. He may possibly be of that happy mediocre temperament, enthusiastic at one moment, despondent at another, and in the end unsatisfactory both to friends and foes. The lack of a strong will in a man called on to hold together the elements of a state is always the cause of ultimate dissolution. However, there is one thing certain; there is a revolution in Bolivia.

While on the subject of revolutions, we may be permitted to point out a curious historical and astrological fact, which will inspire the Bolivian revolutionists with confidence. July is a propitious month for such outbreaks. In that month important social revolutions have culminated triumphantly, and we need merely mention the well-known dates of the 4th, 9th and 14th of July to prove our assertion. The [illegible] Mars sheds on this sublunar world in July is a question we recommend to the study of astrologists and we should like to hear what they think in the Cordoba Observatory on the subject. Beware of July! It is worse than January. Unfortunate the man who comes into the world in the first month of the year. An unkind fate pursues him. Byron was born in January; and he was lame. Scott too was born in January and he was lame. The present Emperor of Germany was born in January and he has lost the use of an arm. We could continue the list, but it is not necessary. These facts afford food for profound reflexion on the influence of the planets, in which the ancients had a blind faith, and we merely mention them to rouse, if possible, the curiosity of Cordobese astronomers.

Before abandoning our theme, we will point out another curious fact, which shews the power and influence of rapid communication on the feelings of a nation. There is, at this moment, a lamentable indifference to the fate of Bolivia, an indifference which we have only been able to overcome for our own part by the unexpected receipt of the torn and half-obliterated sheet before us. Would it not be safe to say that a similar state of affair, we mean a revolution, in Brazil or the Banda Oriental would steep us all in excitement, raise our sympathies, provoke our anger as the case might be, and perhaps urge us to enter the tented field? Our joy was unbounded when the last revolution in Brazil triumphed; our sympathy and our anger were awakened by the failure of the Banda Oriental revolution in the days of Santos. Yet the terrible struggle which is at present putting back the hands of the political clock in Bolivia has been begun, and will be carried to the bitter end amid the unneighbourly indifference of Argentines. We have yet, it is true, to bind Bolivia to us with rails of steel.

SANTA FE BANK.

Rosario de Santa Fe, June 21st, 1890

Mr. Minister,

I beg to acknowlege receipt of your note dated 21st inst., and having noted contents, have the honour of answering as follows:—

Total issue of 1882 received by this bank from North America	13,000,000
1. Inspection Office has burnt	5,000,000
2 National Bank withdrew from Nov. 1889 to March 1890	5,120,448
3. Lying in vaults of this bank	2,710,778.50
4. Remaining consequently in circulation	168,773.50
Formingthe total of notes recd.	13,000,000

I beg to place at your Excellency's disposal so that you may take the steps you may deem fit with regard to the burning, items 2 and 3 summing up 7,831,226 50 and with regard to item 4 the bank is doing all in its power to get in all the old issue, for which purpose it has published the enclosed advertisement in six papers: *La Argentina*, *Prensa* and *Nacion* of the Capital, in the *Capital* and *Mensagero* of this city and in the *Nueva Epoca* of Santa Fe. Having thus answered Your Excellency's questions, I beg to salute you with my most distinguished consideration. God guard Y.E. —*Olendorff*, Director-General—*C. Palacios*, Sub manager—To Dr. J. A. Garcia, Minister of Hacienda of the Nation.

In view of the above, the National Executive, in Cabinet Council, published the following decree yesterday:—

"Buenos Ayres, June 23rd, 1890.—In view of the declaration of the Banco Provincial de Sta. Fe in the preceding note, that of its issue previous to the Free Banking law it has in its possession the sum of two millions seven hundred and ten thousand seven hundred and seventy-eight dollars fifty cents (2,710,778.50) and deposited in National Bank in this city the sum of five millions one hundred and twenty thousand four hundred and forty-eight dollars (5,120,448), or say a grand total of seven millions eight hundred and thirty-one thousand two hundred and twenty-six dollars fifty cents (7,831,226.50) which have been withdrawn from circulation and which it places at disposal of the National Govt. for the end desired; and existing still in circulation the sum of one hundred and thirty-eight thousand seven hundred and seventy-three dollars fifty cents (138,773.50) of the same emission which the bank will get in by giving the holders a fixed date to convert as per advertisement in the several journals mentioned, and considering:

That it is advisable to proceed to the immediate destruction of the notes already withdrawn and placed at the disposal of the National Government for this purpose, surrounding it with all the formalities and giving it the publicity that matters of this nature demand, and with regard to the notes still in circulation the measures adopted by the bank to get them in being in strict accord with the provisions of the law and the intention of Government to extinguish this issue, the amount being at the same time inconsiderable.

The President of the Republic in Cabinet Council decrees:—

Art. 1—That the National Guaranteed Banks' Inspection Office shall proceed immediately to destroy by fire the seven millions eight hundred and thirty one thousand two hundred and twenty six dollars fifty cents (7,831,226 50) in notes of the old issue of the Provincial Bank of Santa Fe placed at disposal of National Government for the purpose.

The burning shall be effected in the Inspection Office, the notes to be previously counted before a representative of the Provincial Bank of Santa Fe and the Chief Notary of the Government, and the minutes of same shall be drawn up in triplicate form, one of which must be handed to the Bank and the other two to the Minister of Finance.

The burning must be publicly announced one day before it takes place.

Art. 2. The measures adopted by the Provincial Bank of Santa Fe regarding the withdrawal of the 168,773.50 at present in circulation are approved, and the bank must remit monthly to the Inspection office the notes to be destroyed according to the rules prescribed in Art 1.

Art. 3. The Finance office will give the necessary instructions so that this decree be properly executed.

Art. 4. Let this be communicated, etc. —Juarez Celman—J. A. Garcia—Salustiano J. Zavalia, Jose M. Astiguete, Nicolas Lavalle.

Our Mails.

Our New York Correspondent telegraphs that a disastrous railway accident has taken place at Oakland, California, in which thirteen lives were lost. The drawbridge over Oakland Creek, an estuary of San Francisco Bay, was open when a train approached. The driver endeavoured to pull up, but the momentum on the tram was too great, and the engine and tender and one car were precipitated into the water. Thrilling stories are told by those who escaped. From the state of the bodies recovered there appears to have been a dreadful struggle for life.

We learn from St. John's, Newfoundland, that the action of Sir Baldwin Walker, the commander of the Esmerald, in connection with the proceedings of the French at St. George's Bay is anxiously awaited by the colonists.

The French Derby, our Correspondent at Chantilly telegraphs, was won rather easily yesterday afternoon by Baron de Rothschild's Hesaume. Mons. P. Aumont's Mirabeau finished second, three quarters of a length before Fitz Roya.

Large parties of excursionists, chiefly from Lancashire, visited Hawarden on Saturday. During the afternoon they assembled in front of the castle and cheered so pertinaciously that Mr. Gladstone ultimately made his appearance and spoke a few words.

Mr. Irving brought his season at the Lyceum to a close on Saturday evening, when Miss Ellen Terry took her annual benefit, the piece presented being 'Olivia.' At the close of the performance Miss Terry and Mr. Irving were loudly called for. Mr. Irving in a farewell speech briefly indicated his engagements during the next few weeks, and said that with Miss Terry he would reappear at the Lyceum next September, producing a new play by Mr. Hermann Merivale founded on the romance of the "Bride of Lammermoor."

"La Traviata" was given at Covent Garden on Saturday evening, Miss Ella Russell appearing as Violetta.

The Coaching Club held their first meet of the season in Hyde Park on Saturday. Only 23 coaches were present, a decrease of seven as compared with last year.

The organizers of next Saturday's Anti-Compensation Demonstration in Hyde-park have endeavoured to induce the Chief Commissioner of Police to alter his decision with regard to the route to be taken by the procession, but so far without success.

Middlesex defeated Nottinghamshire at Lord's on Saturday with seven wickets to spare. At the Oval Surrey secured a victory over Gloucestershire by an innings and 152 runs. The M.C.C. and Ground won their match against Oxford University by eight wickets; while Cambridge University easily beat Yorkshire by nine wickets.

Mr. E. Blanc won the Whitsuntide Plate at Manchester on Saturday with Reverend, Mr. Houldsworth's Orvieto being second, and Mr. H. Milner's St. Cyr third. At the same meeting the Club Cup Handicap fell to Coolshannagh, the Saturday Plate to Venice, the Ellesmers Plate to Pierrepont, the De Trafford Welter Handicap to Fenrother, the Stretford Plate to Ossidine, and the Wilton Stake to Niagara.

At the Thames Police Court on Saturday the Magistrate commented in strong terms on the manner in which a form had been issued in Wapping demanding payment of the church rate. People, he said, had been misled into supposing that they were legally bound to pay the rate. He would consider whether he would sign the rate or leave the Vestry Clerk to apply to the Queen's Bench Division for a rule.

The stock markets on Saturday were quiet and firm, and the changes recorded were nearly always in an upward direction. Consols for the account (July) closed at 98¼ xd. From the Bank the sum of 23,000*l.* was withdrawn on balance. Bar silver remained at 46 9–16d. per ounce.

ROSARIO.

(From our Own Correspondent)

June 26th.

Have you had an opportunity of remarking a flock of sheep after shearing on a cold day? How they huddle together and with such lamentable looks, as if protesting against the cruelty of depriving them of their warm jackets! Well, the Rosarinos are just like that flock of sheep. Fleeced by the Government, National and Provincial—fleeced by the Municipality—fleeced by the big contractors, banks, gas-works, and, last but not less, by the Club Industrial.

The fact is, this unfortunate situation has brought the country to such a pass that fleecing is the order of the day. I fleece, you fleece, he (and sometimes she) fleeces, we fleece, you fleece, they fleece, and so through all the inflexions of the verb. And now comes Messrs Baring and their syndicate, and fleece us in "globo", making us pay a Shylock's usury on a loan—a loan that would not have been required had the country been governed with intelligence and honesty.

A few thousand of our fleeced citizens got up a meeting, and a very imposing meeting it was, for the purpose of petitioning the Governor, then in Rosario, to kick the present Municipality out of the way and give to the town a batch of City Fathers who would be a little more paternal in their dealings with the community. I laughed in my sleeve, although I too am one of the fleeced, and thought of the fable of the frogs petitioning Jupiter for a king. Our Governor, who is very polite, a very pink of urbanity, treated the Committee who presented the petition with cerveza (marca "Caballo"), biscuits, "maté amargo" and cigarillos, and promised an early answer; and, putting the petition in his pocket—no, not in his pocket, it was too voluminous for that, but on the table—he took himself to Sleepy Hollow, metaphorically placing his thumb to his nose and gracefully extending the fingers, as the train left the station.

There is a terrible hubbub in Rosario about the question of the precipitation of the sewerage into the Parana. It is rather curious that the Rosarinos should be so hot on the subject, for even were there any foundation for the fear of polluting the waters of our river, Rosario would not suffer, as long as the current obeys hydraulic laws and runs down and not up the river. The San Nicolas people have more reason on their side, for in one shape or another, all the impurities thrown into the river at Rosario must pass by San Nicolas, and so the citizens of that town are kicking up a bobbery, and altogether have Rosario sewerage works on the brain.

The press and the public have taken the thing up so warmly that the National Government named a commission of experts to decide on the knotty question; but up to the present the quartette of chemists has not sent in a report, and the property holders refuse absolutely to put in the connections into their houses until the ominous question be decided, as to the right of the Sewerage Company "to pollute" the river, or whether they will have to change their whole system and arrange for the distribution of the sewerage on the land. If the latter, the extra cost to the company will be enormous, and as they possess well legalized rights and a formal contract, they may fall back on the Municipality and the Government for heavy damages.

But I do not anticipate it will come to this. Surely there is chemical science enough in the country to work out the problem of the pollution of running streams, and prove that the sewerage of a city ten times the size of Rosario would no more poison the waters of the Parana than a drop of nitric acid in the tank at Lores.

In connection with the foregoing I was now have the interesting incident of a private individual taking the bull by the horns, and citing the two great companies, the Water Works and the Sewerage Works, before the Federal Court. The plucky citizen is Mr. Hernandez, a lawyer of Rosario. I do not quite understand the technical merits of the case, but in his plea, Mr. Hernandez, after giving it very hot indeed to our Municipality, goes on to state that the contracts with the two companies, and especially with the Sewerage Company, are unconstitutional, and can therefore be annulled by the Federal Court. He consequently enters a suit against Mr. John Stainforth, concessionaire of the Sanitary Works, and Mr. Albert Geirer, manager of the Water Works.

I do not suppose that anything will come out of it, but I most cordially sympathise with the movement to bring our authorities to book. This may be the commencement of a new era, when Governments and Municipalities may be restrained within the precincts of the laws and constitution. Besides Mr. Hernandez, we have a powerful Commission of gentlemen whose object is the same—to place the authorities in the dock of the Federal Court.

"Will you come into my parlour, said the spider to the fly?"

The Rosario Sugar Refinery, with a National guarantee of 7 per cent, is obliged by a ridiculous clause in its concession to confine its operations to native sugars. It is true they were allowed to introduce two cargoes of dirty Para sugar at a nominal rate of duty, but that has all been worked up, and the Refinery does not know where to get a sufficiency of crude sugar. In this emergency it appeals to the manufacturers of Tucuman, and tries to persuade them that it would redound greatly to their interests were they to give up the elaboration of fine white sugar and turn out only the most ordinary qualities, those suited for the privileged refinery. But the Tucuman planters do not see it. The greater part of their mills are fitted up with the most expensive and perfected machinery for the manufacture of sugar as white and valuable in the market as the productions of the refinery with which it competes; and it is not probable the sugar men will accede to the sly proposals of the refinery folk.

The best thing for everybody is what I proposed in a former letter. Let the Government permit the introduction of crude Brazilian and East India sugars at a low rate of duty, say twenty-five per cent "ad valorem." This measure would not damage the precious interests of the pampered sugar planters of Tucuman and elsewhere, and as I have already pointed out, it would lead to the establishment of many more refineries.

What a blessing native industries are to be sure! I went to bed the other night with a Buenos Aires stearine candle. It went out "motu propio" three times while I was undressing, and the last time utterly refused to be relighted. I happened to drop into a country store a few days ago, and was quite bedazzled with the display of brightly labelled bottles ranged on the shelves. All the famous wines of Europe were represented, all from the inexhaustible vineyards of Rosario. Had I ventured to taste, I do not suppose I should have found much difference between "Chateau Lafitte" and "Red Sauterne," but what of that? Do not the labels distinguish them?

There is one thing to be said, however. The manufacture of native poisons, under the auspices of the Club Industrial, is so extensive that they are driving out the liquid poisons. All the same. The Argentine stomach is equally the sufferer.

RACING.

There can be but one verdict as to the thorough success of Tuesday's meeting in Belgrano, for, in spite of the cold and unpleasant day, the large crowds assembled were favoured with some really brilliant sport, no fewer than 62 horses taking part in the 6 races; the finishes, too, were all good, and from first to last, interest never flagged.

The great event of the day was the meeting of Asteroide, Finance and Puypaveau, and, whilst the first-named was established a firm favourite, a long price could be procured about the second, notwithstanding the great confidence of the stable. Half a mile from home, Finance held a long lead, and, had his jockey thence made the best of his way home instead of easing his mount and allowing Asteroide to get within close hail, the result might have been entirely different. As it was, the top-weight won in gallant fashion.

Paysandu was never dangerous in the Premio Definicion which was easily carried off by Mariscal who seems to have returned to his best form. The two-year-old races proved tremendous "turn-ups," very hot favourites going down in both instances. The other two races brought out large fields and furnished very interesting contests.

It was noticed that far more care than usual was taken to ensure true starts, and we, in the interests of good sport, sincere ly hope that this improvement may be permanent and not transient only. The voice of the people on Sunday last has been heard; let it not be forgotten, for the well-being of the Turf as an institution depends in no small measure on the confidence of the public.

From a very good start, Carpintero made running slightly in advance of Puygaveau, who was half a length in front of the others; so they ran for 600 metres, when, the leaders running wide at the turn, Finance cleverly slipped through on the inside and quickly established a strong lead from Asteroide, Puygaveau being next, and the others thus early quite out of the race. Approaching the last bend, Asteroide commenced to make up his leeway, Puygaveau at the same time improving his position, but the top weight did not get on terms with the leader till the pad dock, whence a magnificent struggle ensued, Asteroide finally winning by a neck; two lengths between second and third. Dividend, 5.23 dollars.

Railway Items.

The Board of Public Works have approved the plans for the repairs of the Capayan section of the Chumbicha and Catamarca Extension.

Messrs. Samuel B. Hale & Co. have applied to Government for authority, on behalf of the Buenos Ayres New Tramways Company, to run the cars on the port lands and extend the rails to the boulevards on the reclaimed lands. The application will, no doubt, be granted, which will make the tramway a very important concern.

The Courts have dismissed the case brought by Mr. Carlos Choren against the City of Buenos Ayres Tramways Co. for damages to the amount of $15,000. It appears Mr. C. was dragged a few yards one day by a car and was injured. In view of the decision of the Judge, we take it that the accident was due to his own imprudence.

Mr. Fornu has drawn up an exhaustive report on the state of the Andine Railway. He states that between Villa Maria and Velez Sarsfield, and from kil 158 to Villa Mercedes, the line is in very bad condition. Between Velez-Sarsfield and kil 158 it is satisfactory. The rolling-stock is far from being in good working condition which he says, is the unavoidable result of a shaky road-bed. The entire line must be renewed. In the rainy weather it is positively dangerous to travel over the rails which are old and worn out having been in use for the last 16 years. He advises the rails to be taken up by sections of five kilometres and replaced by steel-rails. The bridges are all in need of immediate repairs. In fact the Andine Railway, according to the Inspector, is a very shaky concern. The stations are also in need of repairs.

Telegrams were received yesterday from Resistencia announcing the opening of Mr. Hardy's railway at Las Palmas. The same telegram adds that on the 9th prox. the works of the Central Sud Americano railway (across the Chaco) will be inaugurated.

The surveys of the Five-Lilles' concession for a railway to Tucuman are to be begun at once.

We find the following communication in a recent number of the *Money Market Review* in regard to the North Western of Uruguay Railway:—

Sir,—

This Company's April traffic of 18,000 dols., against 9,913 dols. for the same month last year, is a further indication of the permanent nature of the improvement in the business of this Railway. It is now ten months since the large increases in the traffics commenced, and during that period the returns have grown to 193,130 dols., which compares with 106,824 dols. for the previous ten months, or an increase of 80,3 6 dols.

Another important section of the Midland of Uruguay Railway has just been opened, having now only a very short strip of Line to connect with the North-Western system. When this final link is finished, through communication will be established between the most northern and southern parts of the Republic, and with the capital, Montevideo, which cannot fail to be of the greatest benefit to both Railways, as well as to the country, and I understand that the President has already ordered great preparations to be made to celebrate the auspicious event in grand style.

I am, Sir, &c.,

South American Railways.

The E. P. approved the plans regarding the different works at present in construction of the Central Argentine Railway on its branches from San Fernando to Pergamino and from Rosario to Pergamino.

American Whiskey.
DECKER'S
ABSOLUTELY PURE
This mild, mellow and delicious Whiskey is distilled from the finest growth of carefully selected Rye grain and Barley malt. It is a marvel of wholesomeness, excellence and evenness of quality, unequalled by any Whiskey in the market. It is bottled in bond for export only, is entirely free from fusil oil, possesses a natural flavor and fine tonic properties, suited exactly for the use of invalids and weak and sickly persons. It is cooling, refreshing and strengthening so pure, smooth and ripe, and agreeable to the palate as to invite the attention of connoisseurs.

The topics for discussion to day in the hole and corner knots on Change were manifold, n t though the clandestine emissions, the loan and the bill thereof before Congress occupied most attention, the changes were also rung on the electrified state of the political ambient not only in Entre Rios but here. With regard to Entre Rios it seems that matters have arrived at such a stage there that there is a general search for arms, and we heard of two English engineers stopped in Parana searched and immediately released on producing their papers. The Entre Rios question looks indeed ugly and difficult of solution; on the other hand matters here are so apparently superficially quiet that it is difficult to understand why the troops are being accumulated and kept to barracks, unless it be a measure of excessive precaution. The loan bill before the deputies will it is expected be approved by the Finance Committee to morrow and be law in the beginning of next week; its provisions prohibiting further paper issues are warmly approved in the market, and only exception is taken to that part of the wording where the *actual* issues of the Free banks are spoken of; it is hoped and expected that the words *actually authorized* will be substituted for actual, otherwise the bill would lead an appearance of sanction at least to the clandestine emissions. The latter scandal looks like dying a natural death, as the two prime offenders, the Cordoba and Santa Fe banks, will soon have their extraordinary supplies reduced to ashes. The financial atmosphere is thus gradually clearing, though it seems that the provinces are drifting back again into the old chaos of local multiform issues, whether it be vales or treasury bonds, so that the Free Banking law will soon become a dead letter, a law in name only.

The Custom House receipts to-day were 67,800 dols. dold.

The best news of the day comes from the Boca; already half the entrance channel is dredged to 22 feet, so that soon the Madero port, built at such immense expense to the nation, will be fully available for seagoing vessels and steamers of the largest draught. Of the 13 kilometres about 8 have been already done. It is also said on good authority that the canalisation of the Riachuelo is about to be undertaken by Mr dredge, at once the powerful American cheapest system known to marine engineers.

Wolseley Sheep Shearing Machine Company, limited.

MR WILLIAM ALISON, of Canonbar, N.W.S., writes under date 3rd September, 1889:

"I have gone in for the Wolseley machine shears, and you will be glad to hear that they are doing capital work. I shore 1 a couple of sheep with the machine shears, after they had been shorn by the old-fashioned shears, and got 6 ozs. from the one and 6¼ ozs. from the other. These sheep were really creditably shorn by the shears, and I quite believe that take the average shearing through, I shall save at least ½ lb of wool on each she p. The sheep are turned out with as fine a cut, and looking most happy and like pictures. One no longer has to pace out and down the shearing floor quietly muttering in bad language, for it is easier for the shearer to do the work well than badly. I feel satisfied that in the course of a few years very little shearing will be done by the ordinary hand shears.

* * * * * * *

"My shed having 60 machines, and being alongside the railway line, has been very largely visited by squatters and others, and not one but has been greatly delighted with the sheep. The tallies have reached 125, 104, 100, and so on per day. I believe that, before shearing is over, the whole sixty men will average 100 each. Such an average was quite impossible under the old system, owing to men being off with sore wrists, hands, etc.

* * * * * * *

"I have already placed another order for 40 machines for the Maryulah shed. We had a lot of trouble at first, owing to a deficiency in combs and cutters. Wolseley, it appears, has been very slack in sending out sufficient quantities; in fact, the Company has lost thousands of pounds through its inability to supply sufficient machines for new orders."

THE TRUE-FIT TRUSS

Possess the following manifest advantages, and are highly recommended by all who use them:

They are most comfortable and easy to wear.
They are totally imperceptible when on.
They have no cumbrous fastenings, and retain their position in any posture.
They are very durable and will last for years.
They may be used in the bath, being impervious to moisture, and are always clean.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by Stallions, Bulls, etc., imported direct from England by the owner; it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F. C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia, La Favorita. Apply to the Mayordomo, Almacen La Suiza, Carrera Tandil & Necochea. Also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

"Curative Paste"
BUCHANAN.
Colonia (B. O.), May 1890

Gentlemen—
Having recently accepted the Agency for the "Sale of Curative Paste" for this Republic, I have great pleasure in introducing this dip to your notice.

This dip has been found unrivalled by some of the largest Estancieros that have used it for some time past; and this great success has induced the manufacturer to bring it more prominently before the sheep-farming Republic.

As a cure of Scab it is the most effective, and as a preventive the most permanent that has ever been offered to the public. Scab CANNOT EXIST where "CURATIVE PASTE" is used.

As an economiser of time, labour and expense, it is decidedly the best; curings are less frequent, the necessity of extra men is avoided and consequently less expense incurred.

But in addition to this, we claim and can prove that sheep cured with this dip yield a vastly superior quality and greater quantity of wool than those cured with other dips.

These are advantages that a sheep-farmer cannot, and will not, overlook if he wishes to manage his animals profitably.

Try a sample and satisfy yourselves that in recommending "Curative Paste" to be the most effective, the safest and cheapest dip existing we do but claim that which is admitted by all who use it. (Vide testimonial.

Yours truly
ARTHUR JAS. KELLY,
